DETAILED ACTION

Allowable Subject Matter

1. Claims 14-17, 20 and 21 are allowed.
2. The following is an examiner's statement of reasons for allowance: regarding claims 14-16, the prior art of record fails to teach or make reasonably obvious wherein one of the first organic molecule and the second organic molecule comprises at least one group selected from a hydrocarbon group and a fluorocarbon group; regarding claim 17, the prior art of record fails to teach or make reasonably obvious wherein one of the first organic molecule and the second organic molecule includes a hydrocarbon group but does not include a fluorocarbon group, while the other includes a fluorocarbon group; and regarding claims 20 and 21, the prior art of record fails to teach or make reasonably obvious wherein the first organic molecule is a pentacene derivative.

Japanese Patent Application Publication JP2005/243822 to **Kawase** discloses the method as claimed, wherein the first organic molecule is a pentacene derivative [see Drawing 5; see also paragraphs 0130-0132]. However, JP2005/243822 published in Japan on 8 September 2005, which is after the priority date of the instant application (18 August 2005), and therefore is not eligible as prior art under 35 U.S.C. §102.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
